VIKING ATHLETICS HAS BEEN THE BIGGEST NAME AND MARKET LEADER IN PLATFORM TENNIS FOR ALMOST THIRTY YEARS.

During this time as unquestioned leader in platform tennis, Viking has been synonymous with the sport and the “Helmet & Horns” logo makes Viking the most recognizable brand in the platform tennis space. We have been able to achieve that status by making the best products in the sport through a combination of the best materials, unparalleled R&D, and by earning our customers’ trust and loyalty.

AND MENACING BLACK.

THE PICKLEBALL SWORD

14MM BEAM, ELONGATED HANDLE.
TOTAL PICKLEBALL DOMINANCE.

REDESIGNED RACQUET BAGS

IMPROVED MATERIALS.
VIKING BLUE WITH DISTRESSED LOGO.
PLENTY OF STORAGE!

THE LEADÊR IN PLATFØRM TENNIS

THE VIKING TECHNOLOGY

I - The Carbon Fiber Advantage = Improved Control, Enhanced Easy Power, and Superior Durability.

All our paddles are made from high-grade carbon fiber with our proprietary “**Carbon Fiber Stability System**” (CFS²) technology. Some of the clear benefits of our paddles are:

- A firmer and more responsive feel at ball contact due to the stiffness, stability, and strength of our paddles. This leads to better control and precision in shots.
- A more consistent feel for the ball due to the carbon fiber’s resistance to vibration and deformation.
- Efficient and effortless energy transfer to the ball, faster swings, and less arm fatigue due to our lightweight paddles’ quick maneuverability and whippy feel.

Our paddles are less prone to damage or deformation and will maintain their high-performance attributes longer than anything else on the market due to the carbon fiber’s unmatched durability and resistance to wear and tear.

II - Two-Size Holes System

The rules have changed and so have our paddles. Through extensive on-court testing from our elite testers, the ultimate solution was found:

- **Standard size holes** remain on the inner sweet spot to allow for control and power without sacrificing stability.
- **Larger holes** on the outer sweet spot area for increased spin as the ball travels up on the paddle upon contact.

Our **two-size holes system** will allow players to generate maximum spin in all conditions: warm, cold, dry, or wet.

III - Dual-Grit Zone

Contrary to the myth grit helps players generate spin, the sharpness of the hole edges at the surface of the paddle is what helps players maximize their spin. The sharper the edge of the holes, the more bite the ball gets which in turn increases spin. Our **dual grit zone** is engineered to provide players with the optimal blend of spin and control, as players need both. Specifically:

- The **fine grit inside** the sweet spot allows for the ball’s close proximity with the edges of the holes upon the initial contact with the paddle.
- Similarly, the **thinnest grit outside** the sweet spot ensures the closest friction between the ball and the holes as the ball slides towards the top of the paddle upon the initial contact. This results in maximum ball control for any shot and in any weather conditions.

ABOUT

PÄDDLE ØVERVIEW

We offer four paddles families (Axe, Shield, Sword, and Hammer), each facility featuring three models.

Each model has a different core:

Pro models: C40 (formerly Mid +) core.

Lite models: C30 (formerly Mid) core.

Prodigy models: C22 (formerly Soft) core.

Our paddles have a wide variety of weights, ranging from the 250g Junior Zombie paddle to the 390g Hammer C30.

OVERSIZED (PADDLE SQ IN SURFACE RANGE OF 85-93)			MIDPLUS (PADDLE SQ IN SURFACE RANGE OF 80-84)

CARBØN FIBER ADVANTAGË

The most refined and elegant qualities that you would expect in an outstanding player's paddle come together thanks to our new "Carbon Fiber Stability System" (CFS²) technology: optimal blend of control, power, maneuverability, and whippy feel for enhanced paddle head speed. The CFS² softens the response at impact and stability and maneuverability coexist seamlessly.

Drives and Lobs

A tasteful balance of qualities: easy power, spin and control are all abundantly present. Whether you are looking to roll the ball in, block it back, or take an aggressive cut, the CFS² paddle is the perfect tool for the job thanks to the easy acceleration and outstanding feel.

You can groove your drive game without fear of over-hitting, and the nice soft and fluid feel at impact will result in the most consistent lobbing experience.

Overheads

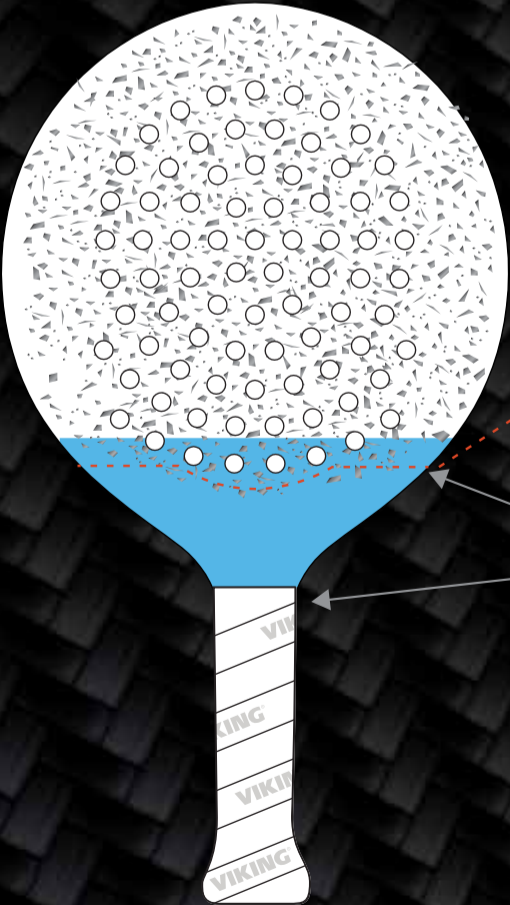

For spin overheads, those who want to produce those high-end specialty shots will find that there is enough mass in the paddle head to help knife the ball and keep it low.

Volleys

The CFS² finds the sweet spot between maneuverable and stable. Our proprietary technology will offer players what is probably the most sought after volleying advantage: increased ability to diffuse pace off incoming drives due to the paddle's near perfect stability at contact.

Serve

Effortless power controlled by spin that will bring the ball in – all thanks to the racquet's superb feel through contact and follow-through. It will never feel heavy or sluggish through the strike zone.

Grit Guard

Expanded grit guard area allows for more comfort without sacrificing surface grit.

Carbon Fiber

Carbon fiber weave wraps the entire throat of the paddle, giving it added stability and increased shock reduction without adding any weight.

CARBØN FIBER STABILITY

PLÅTFORM TENNIS

Meet the all new ***Weapons platform tennis line up***—our most extensive line-up revamping ever. Through a collaboration with hall of famers, national champions, current top level players, and a few passionate club players along with the smartest engineers in the game—we now offer, once again, the best paddles ever made.

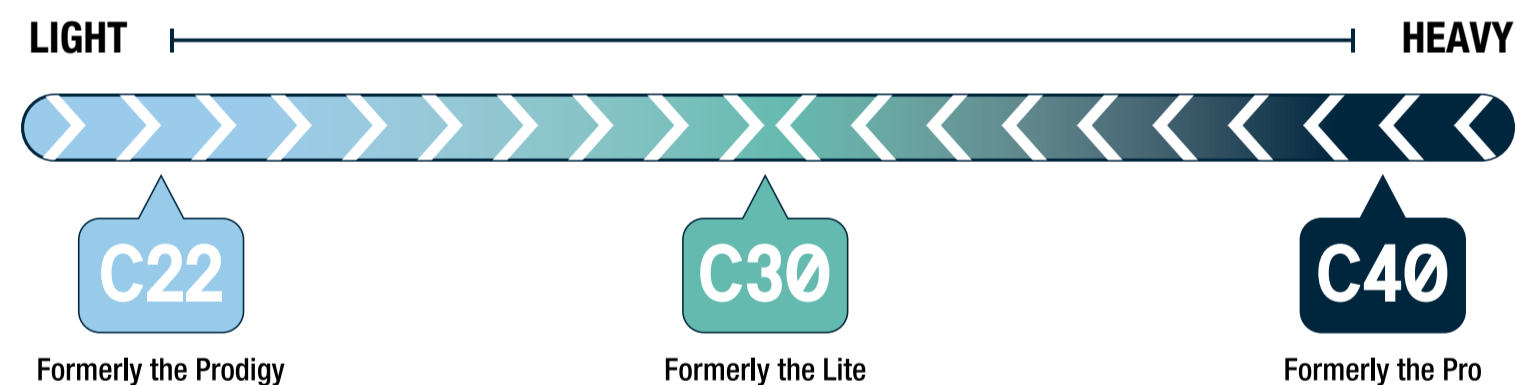

CHOOSE YOUR WEAPON

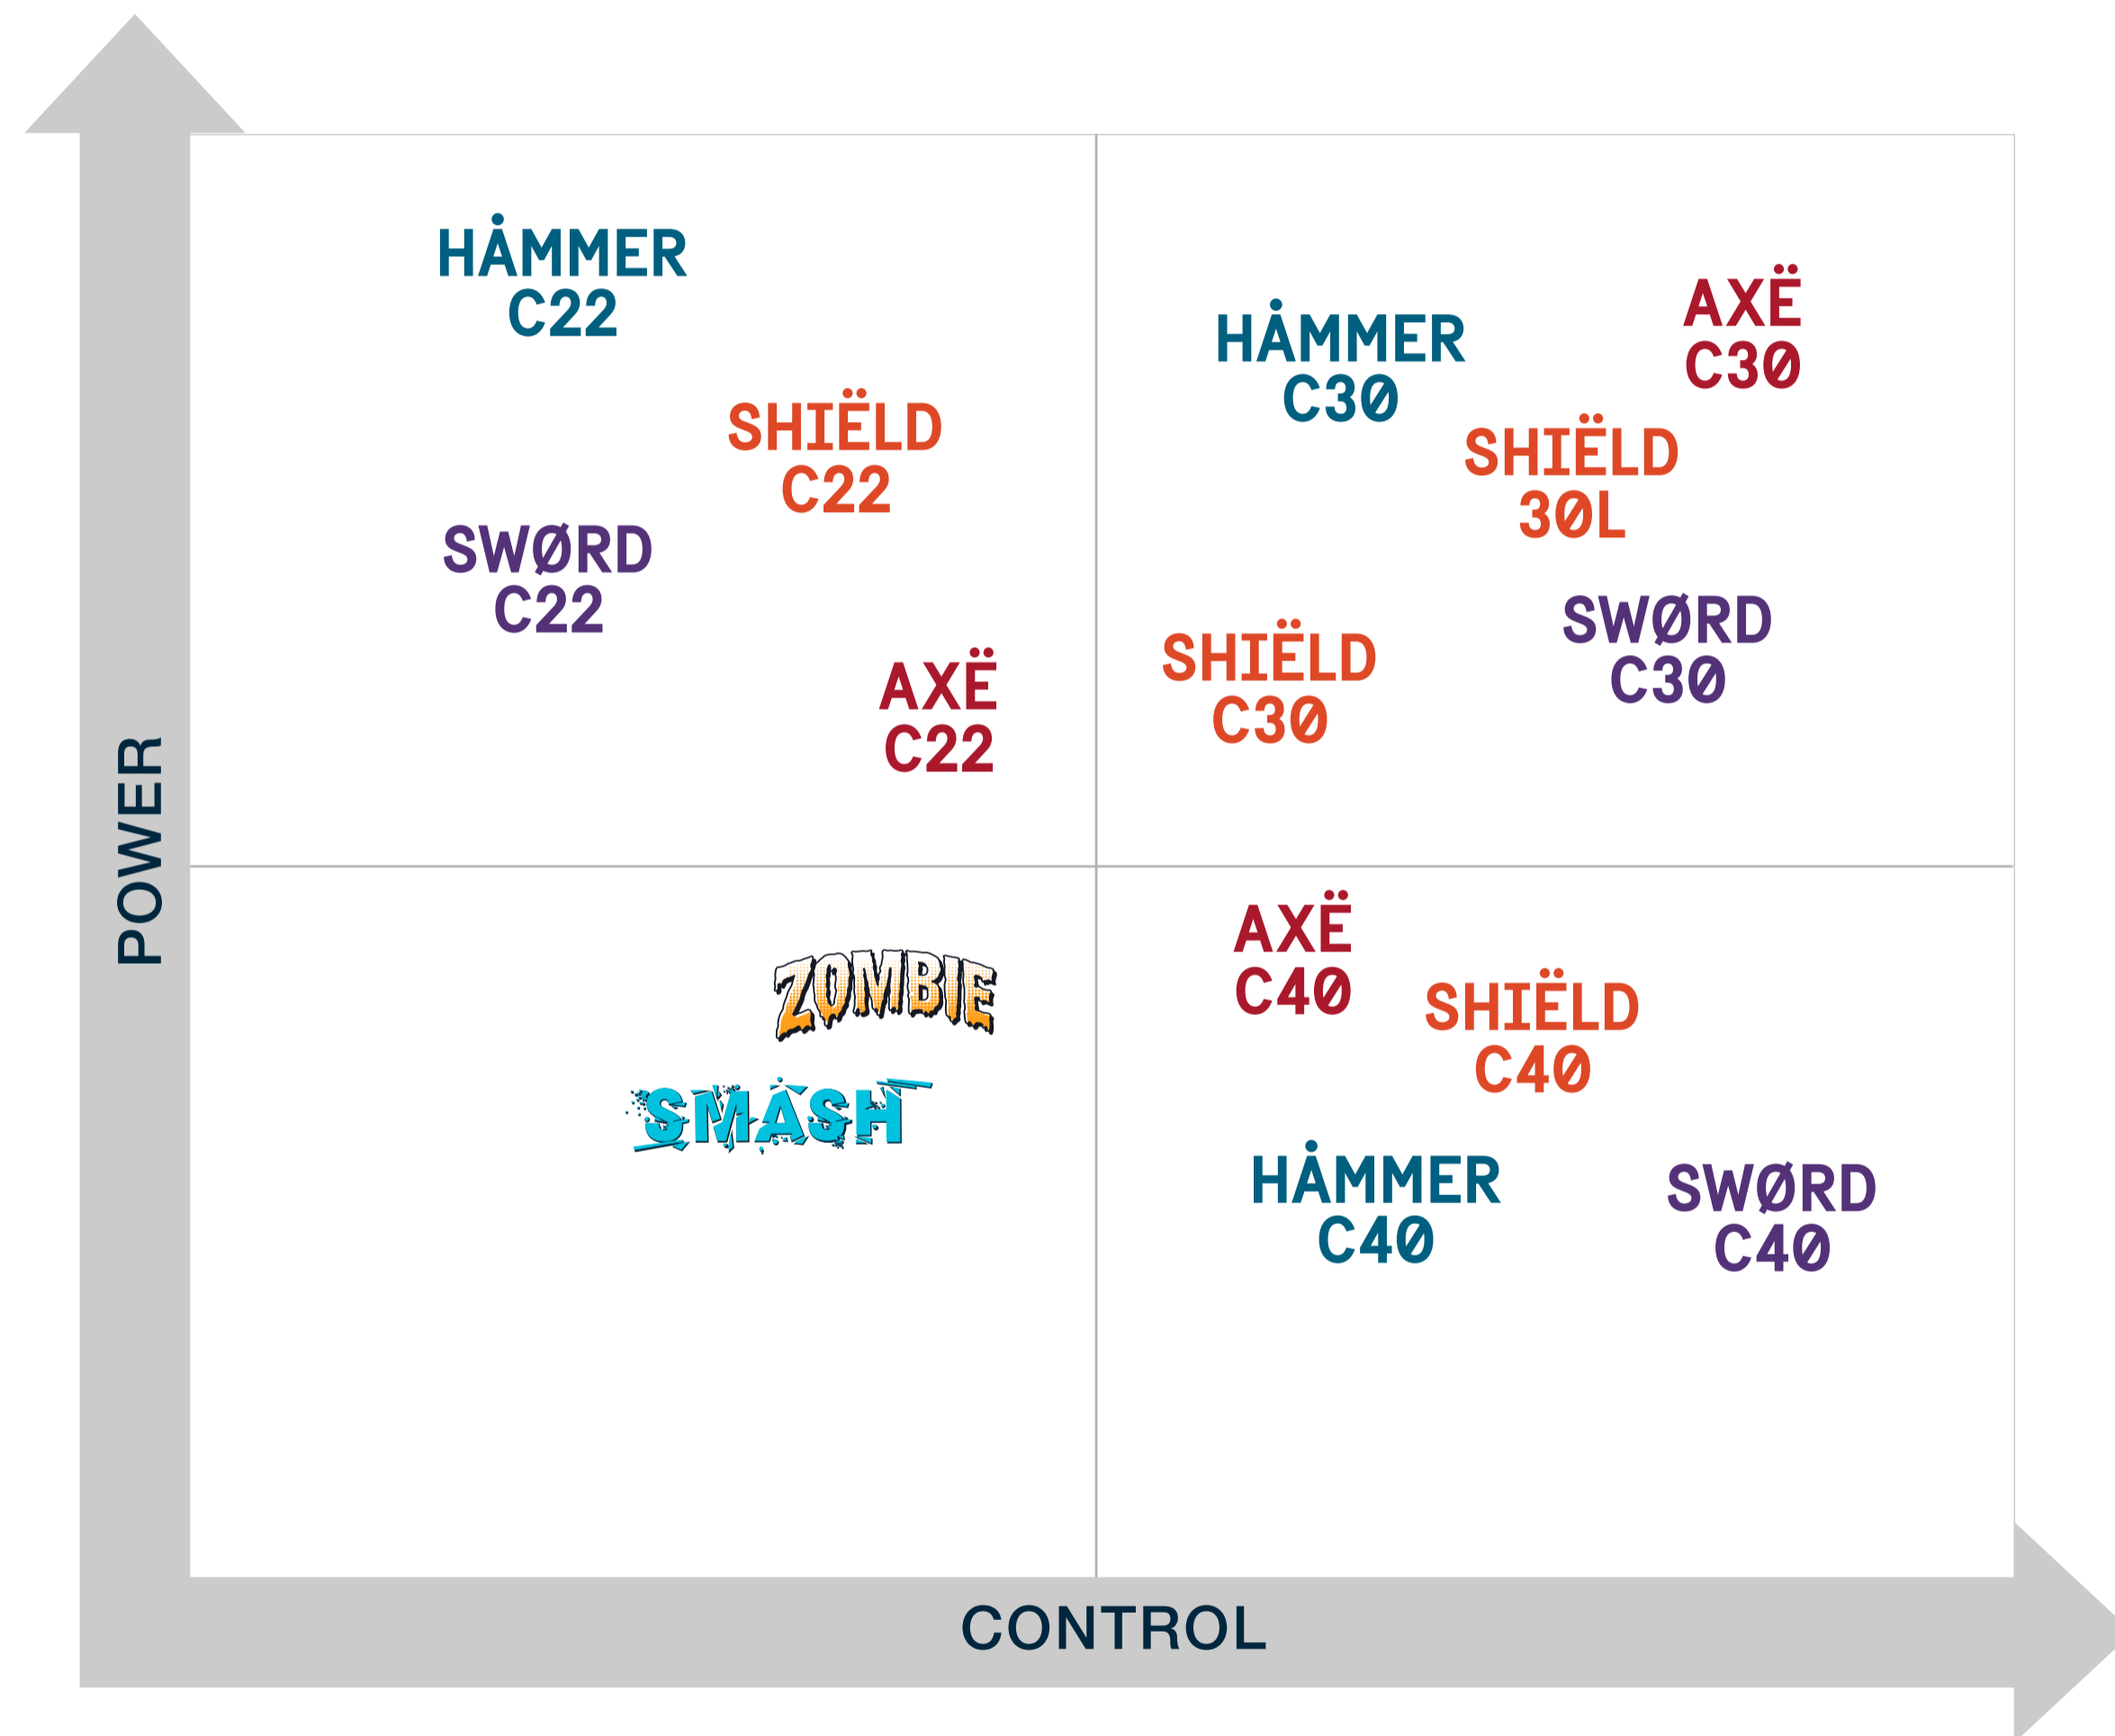

Platform Tennis Fitter

Players of all levels continuously look for that paddle that gives them the best balance between power and control. Control should always be paramount. Ideally, you are looking for a paddle that helps you generate your own pace while retaining the most control of the ball. Figure out where your level places you on our Power vs. Control chart to the right and then choose one of our twelve outstanding paddles across four paddle families that will take your game to the next level.

The C22 Advantage

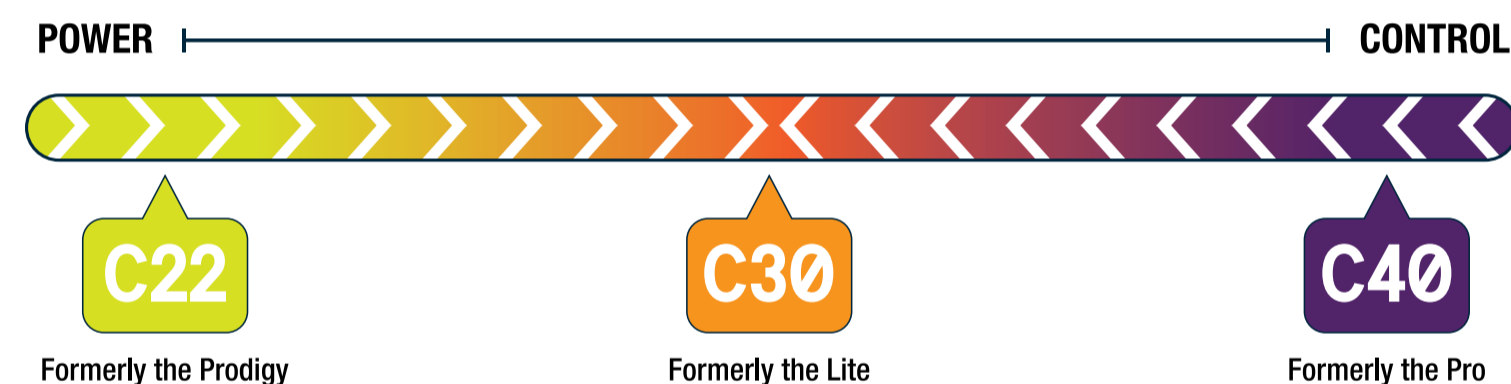

Lighter & Softer: the answer to all those nagging arm aches, due to the soft bouncy feel of the core combined with our triple threat technology.

CØRE DENSITIES EXPLAINED

Core densities across all four families remain the same. However, we eliminated the vague descriptions “mid+”, “mid”, and “low” cores, having tested and measured all our cores by foam density in a specialized lab.

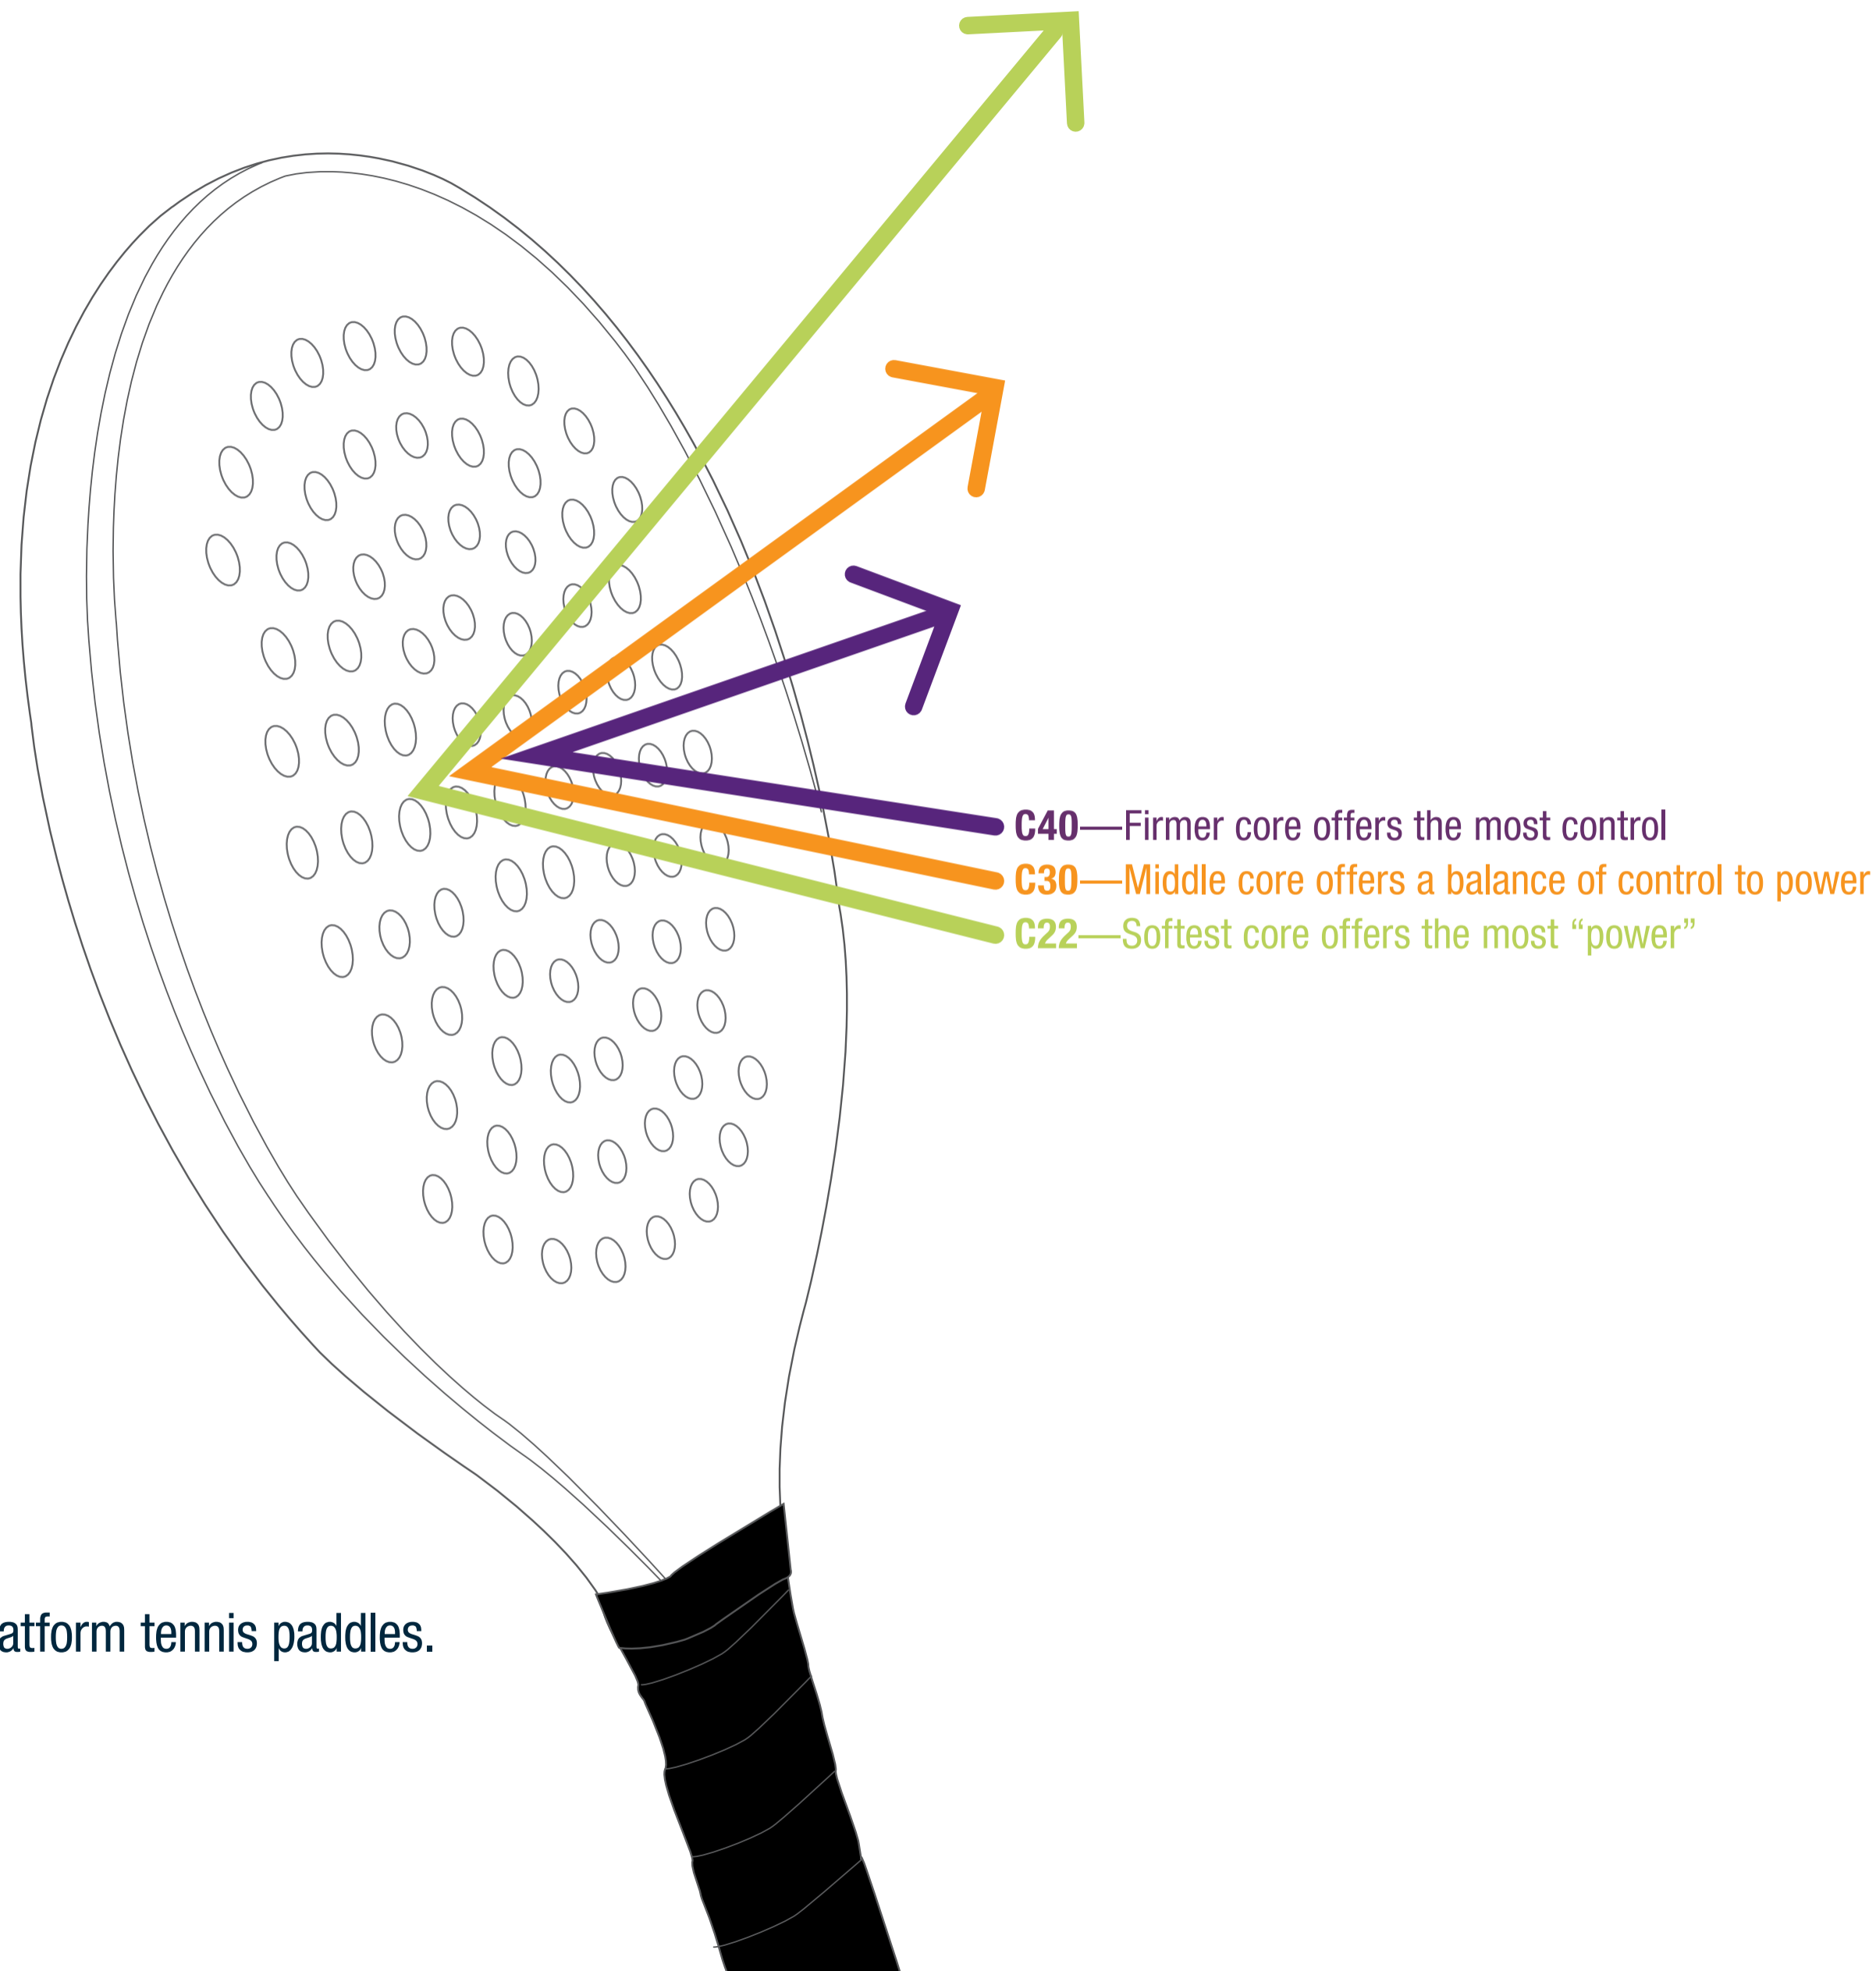

The harder the core (C40), the less the ball will travel upon contact (more control). The softer the core (C22), the farther the same ball will travel (more pace). This is no different than when stringing a tennis racquet.

C40: Our stiffest core—the highest available core density for platform tennis paddles.

C30: Medium density core.

C22: Our most flexible density core.

C40 / Pro Models

Our Pro Models are the heaviest ones in each line-up and feature the hardest core (C40, formerly Mid +). The harder the core, the less far will the ball travel upon contact. Think of a hard core as the equivalent of a tight string tension for a tennis racquet. Many mistakenly think that a harder core offers “less power and more control” but that is not true. You don’t have “less power and more control” with a harder core paddle but rather the ball travels less upon contact because the tighter the core of the paddle, the less steep the angle at which the ball leaves the paddle is and it produces less of a slingshot effect of all our models.

C30 / Lite Models

Our Lite Models are lighter than the Pro models, heavier than the Prodigies, and use a C30 (formerly Mid) core. Slightly better maneuverability compared than the Pro models due to the lower weight. Medium slingshot effect upon contact.

C22 / Prodigy Models

Our Prodigy Models are the lightest models within each paddle family using a C22 (formerly Soft) core.. The best of Viking’s technologies all come together in the Prodigy models for unsurpassed maneuverability and stability. Each Prodigy model features extra holes up to the maximum allowable limit which provide more ball bite for extra spin and control while enhancing aerodynamics and reducing paddle weight for ultimate maneuverability. All come with standard vibration dampeners on the side to reduce vibration at contact. Made with a Soft core which produces the most slingshot effect of all our models.

THE SHIÖLD

(FORMERLY THE REIGNITE)

THE STANDARD AMONG ALL PLATFORM TENNIS PADDLES ACROSS ALL MANUFACTURERS, PERIOD. IDEAL FOR PLAYERS WHO ARE PRIMARILY LOOKING FOR POWER, WITH A COMPLEMENTING SWEET SPOT AND INCREASED STABILITY.

THE SHIELD SPECIFICATIONS

<p>WEIGHTS:</p> <p>385g, 370g, 355g</p>	<p>CFS²</p> <p>CARBØN FIBER STABILITY</p>
<p>CONCENTRIC HOLE PATTERN</p> 	<p>DUAL GRIT SURFACE</p> 

THE SHIÖLD C40

A long-time favorite of tournament and league players alike, the Shield C40 features an oversized hitting surface and a C40 (formerly Mid+) core density. This paddle is a great choice for heavy hitters who are looking for better control on their shots.

Weight: 385g
Core: Mid+/C40
Head: Oversized

RETAIL PRICE:

\$229.00

#7V33324009

THE SHIÖLD C30

The Shield C30 has been the best-selling paddle in the sport since its introduction in 2007. This is the paddle all other manufacturers have been trying to replicate. It features the same oversized hitting surface as the C40, but at 15 grams lighter, offers superior maneuverability and exceptional control—the best of both worlds.

Weight: 360g
Core: Mid/C30
Head: Oversized

RETAIL PRICE:

\$229.00

#7V30024009

THE SHIÖLD C22

The lightest model within the Shield family, featuring the C22 core density (formerly Low Core) with eight extra holes enhancement for the maximum number of holes allowed and Viking's proprietary Vibration dampener. The Shield C22 will appeal to players with a slower swing speed who are looking for greater control and better stability from an oversize paddle.

Weight: 355g
Core: Low/C22
Head: Oversized

RETAIL PRICE:

\$239.00

#7V36724220

THE SHIËLD LIGHT

THE STANDARD AMONG ALL PLATFORM TENNIS PADDLES ACROSS ALL MANUFACTURERS, BUT NOW 25 GRAMS LIGHTER! IDEAL FOR PLAYERS WHO LOVE THE SHIELD C30 AND C22 BUT WANT AN EVEN LIGHTER PADDLE AND BETTER MANEUVERABILITY THAN EITHER OF THOSE OUTSTANDING MODELS. THE DECREASED WEIGHT PROVIDES MAXIMUM COMFORT FOR THOSE WITH ANY NAGGING ARM INJURIES, INCLUDING TENNIS ELBOW. A LIGHTER WEIGHT WHILE MAINTAINING THE LARGEST SWEET SPOT AND PRODUCING PERFECT BALL CONTROL.

THE SHIELD 30L SPECIFICATIONS

The lightest oversized paddle
in our line-up, weighing
in at 345 grams

CFS²
CARBØN FIBER
STABILITY

CONCENTRIC HOLE PATTERN

DUAL GRIT SURFACE

THE SHIËLD C30L

We significantly reduced the weight to cater to those players who still wanted to play with a Shield with the same perfectly balanced C30 (mid) density core but were looking for a lighter paddle. As long as your mechanics are correct, you will marvel at the power and control this paddle will provide.

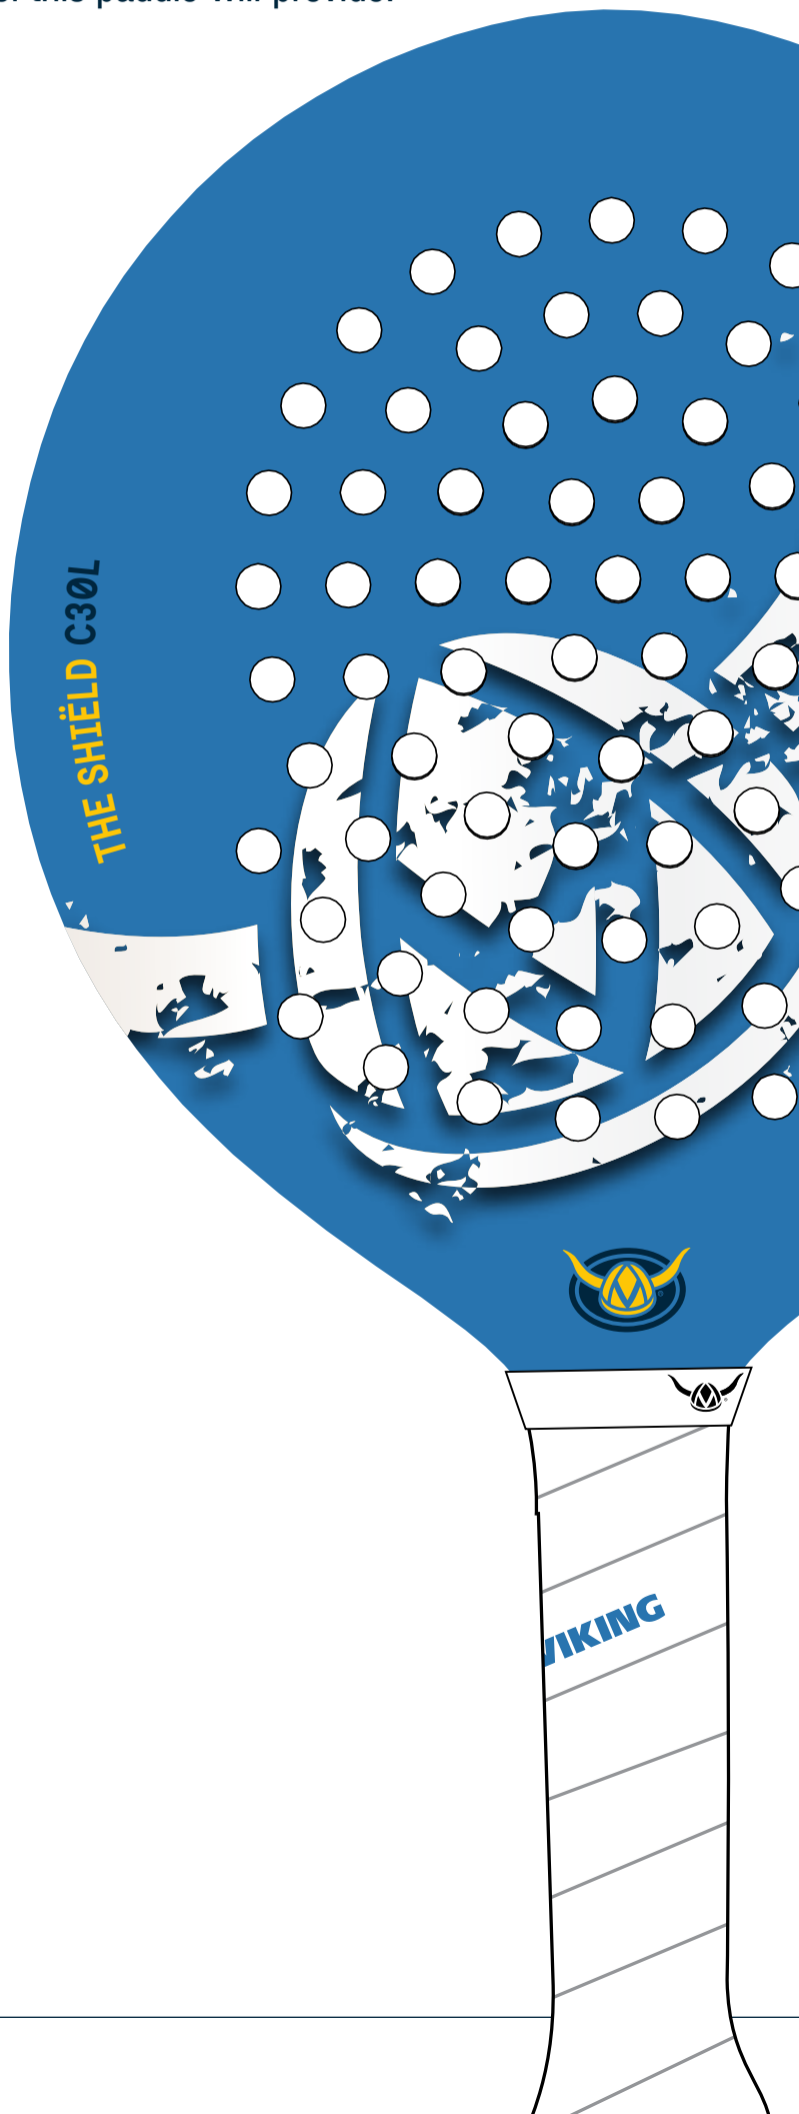

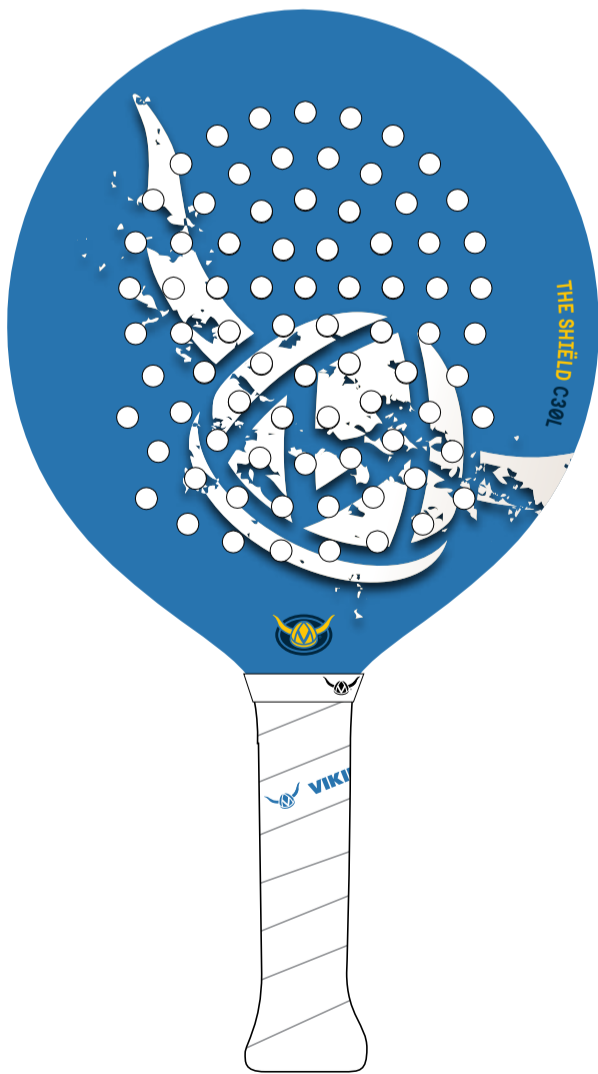

Weight: 345g
Core: Mid/C30
Head: Oversized

RETAIL PRICE:

\$229.00

THE AXË C40

The Axe C40 is modern day player’s paddle. A C40 core (formerly Mid+) coupled with the oversized head and the ideal weight for control and stability. Swing away with confidence with this outstanding paddle!

Weight: 370g
Core: Mid+/C40
Head: Oversized

RETAIL PRICE:

\$219.00

#7V22224582

THE AXË C30

If you like the Axe C40 but feel it is a little too heavy and stiff for you then the lighter (by 10g/.4oz) and softer core (C30 – formerly Mid Core) Axe C30 is will feel perfect. An equally outstanding paddle as the Axe C40.

Weight: 360g
Core: Mid/C30
Head: Oversized

RETAIL PRICE:

\$239.00

#7V21224582

THE AXË C22

Light, soft and forgiving. The Axe C22 is the answer to all those elbow aches, featuring a massive sweet spot that is very forgiving on balls hit outside of it due to our proprietary Triple Threat technology for enhanced stability on off- center shots: carbon mesh rim, new silencer dampener, and extra holes enhancements.

Weight: 350g
Core: Low/C22
Head: Oversized

RETAIL PRICE:

\$239.00

#7V23424582

THE HÅMMER

(FORMERLY THE OZ)

THE ALL-TIME BEST-SELLING PADDLE. DESIGNED FOR PLAYERS LOOKING FOR CONTROL IN ALL ASPECTS OF THEIR GAME.

THE HÅMMER C40

The number 1 selling paddle of all time, the Hammer C40 continues to be a proven performer in the sport. Built with the highest density foam (C40 – formerly Mid+) and featuring a carbon mesh rim, this is the heaviest paddle within our line-up line and offers unmatched control and exceptional stability at contact, making it the preferred paddle for players who rely on their drives.

Weight: 390g
Core: Mid+/C40
Head: Oversized

RETAIL PRICE:
\$219.00
#7V55524040

THE HÅMMER C30

The best entry-level paddle on the market for adult beginners and juniors looking to make the transition to an adult paddle - an outstanding light paddle with a C30 (formerly Mid Core) density. This is the choice for players getting into the game or for players who have played for a long time and need some shoulder/elbow relief.

Weight: 360g
Core: Mid/C30
Head: Oversized

RETAIL PRICE:
\$189.00
#7V51124040

THE HÅMMER C22

The Hammer C22 is powerful paddle that offers that extra pop to players looking to generate more of their own pace without sacrificing feel and maneuverability. It features Viking's proprietary Triple Threat technology for enhanced stability on off-center shots: carbon mesh rim, new silencer dampener, and extra holes enhancements.

Weight: 350g
Core: Low/C22
Head: Oversized

RETAIL PRICE:
\$219.00
#7V53424040

THE SWØRD

(FORMERLY THE OZONE)

BUILT FOR PLAYERS WITH A STRONG TENNIS BACKGROUND WHO HAVE A FASTER SWING SPEED AND ARE LOOKING FOR THE OPTIMAL COMBINATION OF MANEUVERABILITY, POWER, AND CONTROL.

WEIGHTS:

CFS²
CARBØN FIBER
STABILITY

CONCENTRIC HOLE PATTERN

DUAL GRIT SURFACE

THE SWØRD C40

The OG paddle for tennis playing converts. The C40 firm core (formerly Mid+) provides an excellent balance between power and control while the relatively smaller head size offers enhanced all-around maneuverability. A standout feature on all Sword models is the longer handle which provides a better grip on the two-handed backhand, a marquee weapon for the modern player.

Weight: 375g
Core: Mid+/C30
Head: Midplus

RETAIL PRICE:

\$219.00

#7V44424160

THE SWØRD C30

The Sword C30 is the lighter version of the Sword C40—it has the same features but it is 10 grams (.4 oz) lighter. If you like the feel of the C40 but have a moderate swing speed and are looking for even greater maneuverability, this is the perfect paddle for you—great control without sacrificing pop.

Weight: 360g
Core: Mid/C30
Head: Midplus

RETAIL PRICE:

\$229.00

#7V41224160

THE SWØRD C22

The Sword's C22's lower weight is a result of its soft core density and the extra four holes enhancement which leads to enhanced power and optimal maneuverability. This very versatile paddle is particularly attractive to players with a slower swing speed.

Weight: 355g
Core: Low/C22
Head: Midplus

RETAIL PRICE:

\$229.00

#7V43524160

JUNIØR PADDLES

SMASH

The Smash is an ultralight paddle with a shorter handle design for exceptional maneuverability. Combined with the smallest grip size in the line, it's the ideal paddle for entry level and junior players getting into the game.

At 17" long, this paddle is one inch shorter than an adult paddle and is *best suited to children ages 7 to 12.*

Weight: 350g
Core: C22/Low
Head: Junior

RETAIL PRICE:
\$114
#7V084311

ZOMBIE

The Zombie paddle will revolutionize how the junior game will be played. The Zombie is the shortest and lightest paddle Viking has ever developed which will allow children as young as three and four to enjoy the game. For best performance, juniors should use the Viking Extra Duty Training Ball.

A paddle designed specifically
for children ages 3 to 6 years of age.

Weight: 345g
Core: C22/Low
Head: Junior

PICKLEBALL

PICKLEBALL PADDLES

Developed by Viking and current elite player **Andrei Daescu**, our full lineup offers a perfect balance of power and control while providing maximum allowed grit. Built for players of all levels.

PICKLEBALL

For 2024, by upgrading to a PP Core, Viking has lightened each paddle to further improve maneuverability. We have also maximized the allowed grit on the surface of the paddle to increase the spin you can generate on court.

Each paddle uses our proprietary Carbon Fiber Stability System (CFS²). CFS² softens the response at impact and allows stability and maneuverability to coexist seamlessly. Our paddles offer a perfect balance of power and control while providing maximum spin and touch with a carbon fiber fine grit finish.

**All of our paddles Have been developed by
2023 US Men's Doubles Champion Andrei Daescu*
and Viking Athletics.**

Andrei has won gold medals in the following events while playing with the Viking Shield EG.

Men's Doubles

2023 APP NYC Open, Cincinnati Open, Newport Beach Open

Mixed Doubles

2023 Cincinnati Open and Newport Beach Open

*As of August 1st, 2023, Andrei is no longer with Viking.

The Shield Edge Guard

Players who are transitioning from other racquet sports, particularly tennis, will love the feel of this heavier 16mm paddle. The thicker beam provides more stability at the net and at the baseline, especially when having to absorb heavy spin or pace. The edge guard (EG) creates additional stability due to the added weight.

Weight: 227g
Beam: 16mm
Grip: 4 1/4

RETAIL PRICE:
\$199.99
#5V88212

Weight: 227g
Beam: 16mm
Grip: 4 1/4

RETAIL PRICE:
\$199.99
#5V99001

The Shield Aero

Our most popular pickleball paddle, due to the effortless maneuverability of the edgeless design. The thicker 16mm beam provides additional control throughout the court, without sacrificing any pace.

Weight: 218g
Beam: 16mm
Grip: 4"

RETAIL PRICE:
\$189.99
#5V36212

Weight: 218g
Beam: 16mm
Grip: 4"

RETAIL PRICE:
\$189.99
#5V24001

The Axe Edge Guard

Similar in weight to the Shield but with a thinner 11mm beam which allows players to swing freely at incoming balls. The edge guard (EG) creates superior stability at contact due to the added weight.

Weight: 221g
Beam: 11mm
Grip: 4"

RETAIL PRICE:
\$159.99
#5V77033

The Axe Aero

Combining a thin 11mm beam with a lightweight frame, this paddle is extremely maneuverable all around the court. This is a great paddle for beginner-intermediate levels, particularly for those with quick hands.

Weight: 213g
Beam: 11mm
Grip: 4"

RETAIL PRICE:
\$149.99
#5V66033

The Sword Edge Guard

Players with a two-handed backhand will fall in love with this longer handle paddle – we designed it with them in mind! Additionally, our edge-guard (EG) offers outstanding stability at contact. The versatility of this paddle is second to none!

Weight: 224g
Beam: 14mm
Grip: 4 1/8

RETAIL PRICE:
\$189.99
#5V55031

The Sword Aero

A lighter, slightly more aerodynamic paddle than the Sword EG but equally impressive. Players will be able generate pace without sacrificing any control. A beautiful and lethal paddle!

Weight: 215g
Beam: 14mm
Grip: 4 1/8

RETAIL PRICE:
\$179.99
#5V44031

We are thrilled to introduce the Viking Sword. The elongated grip is a standout aspect of this new paddle and the 14mm beam combines the best features of the Axe and the Shield.

RACQUET BAGS

THE VIKING DISTRESSED CØLLECTION

DISTRESSED TØUR BAG

Our Viking Tour Tennis Bag is a modern, scaled-down version of the tennis racquet's bag but with plenty of bells & whistles. Can carry as a regular bag by the handles or strap on as a backpack. We relocated the shoe compartment to the top for better function and easier access.

- Dimensions:** 22" x 12.5" x 13"
- Paddle specific compartment will hold up to six paddles!
 - Paddle divider, to keep paddles separate and safe from scratching each other
 - Oversized main compartment for all your Viking gear and a twelve-pack of your favorite frosty beverages
 - Inside mesh compartment has large pocket to keep gear organized
 - Large pockets on either side of bag for items like your phone, car keys, extra grips, balls, energy bars, gloves, warmitt, gaiter, etc.
 - Left side: Thermal lined section to keep a water bottle or a Chardonnay chilled
 - Zippered pocket on bottom for shoes or dirty clothes and those smelly socks
 - Extra padded, durable and adjustable straps
 - Quick grab neoprene handle on top
 - Customizable bagtag

Color: Distressed Viking Blue

RETAIL PRICE:
\$89.99
#8V2400220

DISTRESSED BACKPACK

The best backpack in the game! Modern, sophisticated and functional, the Viking Backpack is the ultimate bag for all players on all courts! It also works perfectly as your carry-on item for plane travel.

- Dimensions:** 10" x 12" x19"
- Paddle specific compartment will hold up to three paddles
 - Main compartment for assorted gear
 - Inside compartment has large pocket to keep gear organized
 - Right side: Elastic, mesh pockets for smaller items like extra grips, balls, energy bars, gloves, warmitt, gaiter, etc.
 - Left side: Thermal lined section to keep a water bottle or a Chardonnay chilled
 - Zippered pocket on bottom for shoes or dirty clothes
 - Front accessory pocket with cloth lining to keep phone and keys easily accessible and protected.
 - Extra padded, durable and adjustable backpack straps
 - Quick grab neoprene handle on top
 - Customizable bagtag

Color: Distressed Viking Blue

RETAIL PRICE:
\$69.99
